

3rd Grade All-Star News

October

9th – 13th

Week 7

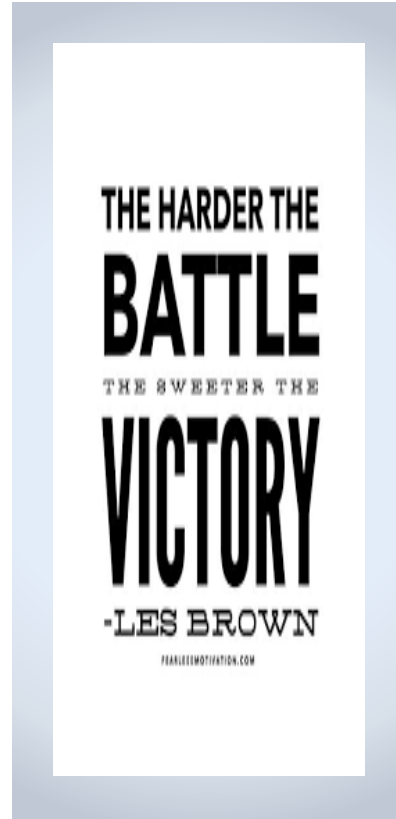

THIS WEEKS HIGHLIGHTS

Students did a great job learning the books of the New Testament. I enjoy seeing them get so excited about learning a new song especially those about the Bible.

You may have seen a tree with many fall leaves right outside of the classroom. Your child can earn leaves to put on the tree by earning a 100% on any test. Students may also earn them by doing good work at home and school. If your child does something above and beyond at home, please stop by my room and grab a leaf to put on the wall.

Reading – This week’s story is “Bat Loves the Night”

Math- In math this week we will be learning about graphs. We will continue to learn how to find the median, mean, and outlier. We will also add measurements to our skills.

Language- Verbs

Writing- Expository

Spelling- VCV

Science- This week we will continue our focus on animal habitats. We will learn how habitats can be destroyed.
